Objective

Motivated and detail-oriented biotechnology student with hands-on lab experience, strong analytical skills, and a background in phlebotomy, chemistry, and physical testing. Bilingual in English and Spanish. Seeking an R&D internship to apply laboratory skills, problem-solving, and scientific curiosity in a collaborative research environment.

Skills

- **Laboratory Experience:**3+years in an academic lab and 6 months as a Lab Tech Assistant.
- **Testing Experience:** Titrations (Acid Value, Peroxide Value, Ester Value, and Saponification) FTIR Spectrometry, and Physical/Stability Testing.
- **Quality Control:** cGMP, GLP, SOP, WID, Audits, and compliance monitoring.
- **Technical Proficiency:** Data entry, documentation, and lab safety.

Professional Experience

Lab Technician Assistant
Young Living – Spanish Fork, UT
May 2024 – Oct 2024

- Performed titrations (acid value, peroxide value, ester value, saponification)
- Conducted stability testing and FTIR spectrometry ID tests
- Prepared, labeled, and distributed samples across lab divisions
- Ensured consistent standards in physical and chemical analyses

Phlebotomy Volunteer (Training Lab)
Mountainland Technical College – Orem, UT
June 2021 – July 2021

- Practiced blood draws using multiple techniques (venipuncture, dermal puncture)
- Handled urinalysis and specimen labeling
- Applied safety protocols and patient care standards

Fulfillment Team Lead
Evobox Company – Lehi, UT
Oct 2022 – Feb 2023

- Trained new team members on correct handling and shipping protocols
- Led packing operations using cGMP and GDP according to company SOPs
- Identified and resolved mechanical issues with production tools and equipment.
